This Agreement is made and entered into by Dell Marketing L.P., One Dell Way, Round Rock, TX 78682, ("Contractor") and the Department of Administration ("State") on behalf of the State of Minnesota, participating members of the National Association of State Procurement officials (NASPO), members of the Western States Contracting Alliance (WSCA) and other authorized Participating States and Participating Entities.

RECITALS

WHEREAS, the State has the need to purchase and the Contractor desire to sell; and,

WHEREAS, the State has the authority to offer contracts to CPV members of the State of Minnesota and to other states.

NOW, THEREFORE, in consideration of the mutual promises contained herein, the parties agree as follows:

INTENT AND PURPOSE

The intent and purpose of this Agreement is to establish a contractual relationship with equipment manufacturers to provide, warrant, and offer maintenance services on **ALL** products proposed in their response to the RFP issued by the State of Minnesota. The Contractor may use subcontractors to provide the warranty and/or maintenance services; however the Contractor will be responsible for working with the equipment manufacturer on behalf of the Purchasing Entity and for the timeliness and quality of all services provided. No type of Lease transactions are allowed through this Agreement.

The Agreement is **NOT** for the purchase of major, large hardware or hardware and software offerings. In general, individual units/configurations should not exceed \$50,000 each. It is the expressed intent of some of the Participating States to set this level at not to exceed \$25,000 each. This **IS NOT** a restriction on how many units/configurations can be purchased, but on the value of each individual unit/configuration. Individual Participating States and Participating Entities may set specific limits in a participating addendum, with the prior approval of the WSCA Directors.

Contractors may offer, but participating states and entities do not have to accept, limited professional services related **ONLY** to the equipment and configuration of the equipment purchased through the Agreement.

At any time, the Contractor may terminate this Agreement, in whole or in part, by giving the Contract Administrator sixty (60) days written notice. In the event of a cancellation, the Contractor shall be entitled to payment, determined on a pro rata basis, for work or services satisfactorily performed and accepted.

The terms of this Agreement and any purchase order issued for multiple years under this Agreement is contingent upon sufficient appropriations being made by the Legislature or other appropriate governing entity.

Notwithstanding any language to the contrary in this Agreement or in any purchase order or other document, a Purchasing Entity may terminate its obligations under this Agreement, if sufficient appropriations are not made by the governing entity at a level sufficient to allow for payment of the goods or services due for multiple year agreements, or if operations of the paying entity are being discontinued. The Purchasing Entity's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final and binding.

A Purchasing Entity shall provide sixty (60) days notice, if possible, of its intent to terminate for reason cited above. 23. Payments to Subcontractors

In the event the Contractor hires subcontractors to perform all or some of the duties of this Agreement, the Contractor understands that Minn. Stat. § 16A.1245 requires that any such subcontractor be paid within ten (10) days of the Contractor's receipt of payment from the State for undisputed services provided by the subcontractor. The Contractor agrees to take all steps necessary to comply with said statute. A consultant is a subcontractor under this Agreement. In the event the Contractor fails to make timely payments to a subcontractor, the State may, at its sole option and discretion, pay a subcontractor any amounts due from the Contractor for work performed under this Agreement and deduct said payment from any remaining amounts due the Contractor. Before any such payment is made to a subcontractor, the State shall provide the Contractor written notice that payment will be made directly to a subcontractor. The Contractor shall ensure that the subcontractor transfers all intellectual or industrial property rights, including but not limited to any copyright it may have in the work performed under this Agreement, consistent with the intellectual property rights and ownership sections of this Agreement. In the event the Contractor does not obtain the intellectual property rights of the subcontractor consistent with the transfer of rights under this Agreement, the State may acquire such rights directly from the subcontractor. Any and all costs associated with such a direct transfer may be deducted from any amount due the Contractor.

24. Indemnification

The Contractor shall hold the Lead State, Participating Entities and its agencies and employees harmless and shall indemnify the Lead State, Participating Entities and its agencies and employees against any and all claims, suits, actions, liabilities and costs of any kind, including attorney's fees for personal injury or damage to real property or tangible personal property arising from the negligent or willful acts or omissions of the contractor, its agents, officers, employees or subcontractors. This indemnification shall in no event exceed an amount of twice the fees paid to Contractor under the specific order giving rise to the claim, suite, action, or liability.
- B. Contractor shall not be liable for damages that are the result of negligence by the Lead State, Participating Entity, or its employees. To the maximum extent permitted by applicable state law, Purchasing Entities agree to be responsible for their own acts, errors, or omissions pertaining to this indemnification provision.
- C. **Additional representations**
For acquisition of Services, the following additional terms shall apply. To the extent permitted by law, a Participating Entity accepts responsibility for and represents and warrants that: (a) the Participating Entity has obtained the appropriate license, intellectual property rights, or any other permissions required to support any Service Description, SOW, or Technical Specification Form signed by the Parties, or Contractor's performance of the Services, including the right to make any copies or Reproductions of any Participating Entity-provided software, (b) the Participating Entity's representations regarding the existence of an export license or the eligibility for export of software without a license are accurate, or (c) that Contractor shall not be held liable for the effect (if any) on the Participating Entity's third-party product warranties caused by having Contractor perform services on such third-party Products.

27. Severability

If any provision of this Agreement, including items incorporated by reference, is found to be illegal, unenforceable, or void, by a court of competent jurisdiction then both the State and the Contractor shall be relieved of all obligations arising under such provision. If the remainder of this Agreement is legally valid, it shall not be affected by such declaration or finding and shall be fully performed.

28. Enforcement of Agreement/Waivers

- A. No covenant, condition, duty, obligation, or undertaking contained in or made a part of this Agreement shall be waived except by the written consent of the parties. Forbearance or indulgence in any form or manner by either party in any regard whatsoever shall not constitute a waiver of the covenant, condition, duty, obligation, or undertaking to be kept, performed, or discharged by the other party. Until complete performance or satisfaction of all such covenants, conditions, duties, obligations, and undertakings, the forbearing/indulging party shall have the right to invoke any remedy available under law or equity, notwithstanding any such forbearance or indulgence.
- B. Waiver of any breach of any provision of this Agreement shall not be deemed a waiver of any prior or subsequent breach. No term or condition of this Agreement shall be held to be waived, modified, or deleted except by an instrument, in writing, signed by the parties hereto.
- C. Neither party's failure to exercise any of its rights under this Agreement will constitute or be deemed a waiver or forfeiture of those rights.

29. Web Site Maintenance

- A. 30. Equal Opportunity Compliance

The Contractor agrees to abide by federal laws and the laws, regulations, and executive orders of the state in which its primary place of business is located pertaining to equal employment opportunity. In accordance with such laws, regulations, and executive orders, the Contractor agrees that no person in the United States shall, on the grounds of race, color, religion, national origin, sex, age, veteran status or handicap, be excluded from employment with or participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity performed by the contractor under this Agreement. If the Contractor is found to be not in compliance with these requirements during the life of this Agreement, the Contractor agrees to take appropriate steps to correct these deficiencies.

The Contractor certifies that it will remain in compliance with Minn. Stat. § 363.073 during the life of the Agreement.

31. Limitation of Liability

The Contractor's liability to a Purchasing Entity for any cause whatsoever shall be limited to the purchase price paid to the Contractor for the products and services that are the subject of the Purchasing Entity's claim. The foregoing limitation does not apply to Paragraphs 12 and 24 of this Agreement or to damages resulting from personal injury caused by the Contractor's negligence. The State reserves the right to require a change in Contractor's then-current primary representative if the assigned representative is not, in the opinion of the State, adequately serving the needs of the Lead State and the Participating Entities.

34. Release

The Contractor, upon final payment of the amount due under this Agreement, releases the Lead State and Participating Entities, its officers and employees, from all contractual liabilities, claims and obligations whatsoever arising from or under this Agreement, except as expressly provided in Paragraph 41, Survival, below. The Contractor agrees not to purport to bind the Lead State or any Participating Entity to any obligation, unless the Contractor has express written authority to do so, and then only within the strict limits of the authority.

35. Data Practices

If an organizational conflict of interest is determined to exist, the State may, at its discretion, cancel the Agreement. In the event the Contractor was aware of an organizational conflict of interest prior to the award of the Agreement and did not disclose the conflict to the Contract Administrator, the State may terminate the Agreement for default. Such consent shall not be unreasonably withheld. The Contractor shall give written notice to the State's authorized agent of such a possibility at least 30 days prior to the sale, transfer, assignment, or other disposition of this Agreement. Failure to do so may result in the Contractor being held in default. This consent requirement includes reassignment of this Agreement due to a change in ownership, merger, or acquisition of the Contractor or its subsidiary or affiliated corporations. This section shall not be construed as prohibiting the Contractor's right to assign this Agreement to corporations to provide some of the services hereunder. Notwithstanding the foregoing acknowledgment, the Contractor shall

remain solely liable for all performance required and provided under the terms and conditions of this Agreement. The Contractor may assign payments in accordance with specific provisions stated in a Participating Addendum.

For any cause of action taken herein by Contractor, the State, at the State's discretion, may participate in any such action. EXHIBIT B - COMPLAINT RESOLUTION

Dell relies on direct feedback from customers through face-to-face, telephone, email and facsimile communication with our dedicated account management team. *Voice of the Customer* is a key initiative at Dell that allows us to maintain the high quality of customer service that has garnered nationwide recognition. This initiative causes us to promptly review and address every service, sales, equipment or contractual issue.

All levels of management work with our customers to ensure that we resolve issues in a timely and complete manner. An email sent to Michael Dell is visible to every level of our company's senior management and is responded to with utmost urgency. While the issue resolution procedures described in this section remain our preferred way of resolving customer issues, the option of contacting Michael Dell ensures a consistent focus on the *Voice of the Customer* at all levels of the company.

Dell also offers Advanced Escalation and Problem Resolution Services that exceed the standard approaches described here (as described in Exhibit C - Value Added Services).

A. Customer Service

Dell's account team provides an escalation path for customer satisfaction issues, from the sales representative to the director of the customer's region.

The Dell Sales Representative (SR), currently assigned to the customer's account, is the primary point of contact for daily business. Any issues related to configuration, pricing, quotes, or purchase orders should be communicated initially to the SR or the Account Executive (AE) for resolution and followed up in writing via email with a copy to the Inside Sales Manager (ISM).

Should the SR be temporarily unavailable, a backup representative will assist the customer. In the rare event that both the SR and the designated backup are unavailable, the ISM is available to handle the issue. Path of escalation for sales issues is as follows:

1. Sales Representative
2. Account Executive
3. Inside Sales Manager
4. Regional Sales Manager
5. Sales Director or Vice President.

If a resolution cannot be reached, the escalation process is then directed to the Public Sector General Manager, Brian Wood.

When necessary, Dell assigns a Project Manager (PM) as a single point of contact for customized deployment and installation. To facilitate timely response to problems during critical periods, the Dell PM will monitor the progress of the rollout and/or installation in conjunction with the Dell Service Field PM.

All operational issues should be communicated to the PM as soon as possible. Initial communication may be email or telephone based on priority of the issue. All telephone communications should be followed by email documentation. The PM will record the issue and coordinate involvement of appropriate resources to assess the issue and define an action plan for resolution. The action plan will be communicated to the project team. The weekly progress report will include status of issues and related action plans.

B. Equipment

Dell's reputation for industry-leading service and support starts with the high quality of our equipment. When support is necessary, the direct model enables us to quickly respond based on specific information provided by our customers.

This information, combined with our knowledge of equipment (as original manufacturer), ensures our premier status. The technical support process is as follows:

1. Technical support calls are routed within Dell by use of specific 800 numbers, or service and support options from a customized 800 number.
2. Technical issues are handled in the main Technical Support queues. Calls are routed to the next available technician. This technician gathers the required information from the caller, including the system ID (Service Tag) number and a description of the problem. This Level One (L1) representative uses several tools and knowledge based aids to diagnose and resolve the issue.
3. If the problem requires a more advanced level of support, the Level One representative consults with a Level Two (L2) technician. The Level Two Technician uses additional tools in conjunction with their expertise to resolve many of the issues. If the issue is not resolved by consulting with the Level Two Technician, the Level Two Technician takes ownership of the issue for further research.
4. Once the Level Two Technician has exhausted the resources and has still not resolved the issue, the issue is escalated to the International Product Support (IPS) for resolution. The IPS engineer is now responsible for resolving the issue. The IPS engineer will work with vendors, manufacturers and engineers to resolve the issue.
5. The customer can utilize the Dell 800 number to receive the latest status on the service call for that specific unit.
6. Customer calls are placed to the Dell Technical Support group through an 800 number. When an on-site service call is required, Dell ships the part required. A technician is dispatched to pick up the part, go to the customer's site, replace the defective part and ship it to Dell. Escalation procedures are built into the process to insure response times are met.
7. Dell developed Dell's Product Support (DPS) for tracking all service requests and dispatching on-site engineers. DPS is Dell's service history database. The Dell Customer Service Delivery (CSD) technician can instantly see the end-user's model number and configuration in DPS by simply asking for the 5-character service tag located on the back of each Dell system. Armed with this information, the technician may begin any necessary troubleshooting procedures with the end user.
8. DPS shows the CSD technician the complete service history of that particular PC. The CSD technician must log entries into DPS each time there is communication with a customer, including nature of the problem and troubleshooting steps taken. So, each call into Technical Support is documented. The CSD technician uses the service history to determine whether a problem needs escalation or needs to be researched further.
9. Dell's service provider is linked into DPS, so if a problem in the field requires on-site attention, the dispatch is seamless.
10. Finally, DPS is the primary tool for diagnosing and attacking early life failures of new products and measuring a product's reliability.

C. Billing Issues

Dell emphasizes quick response to billing issues with an immediate and concise approach:

1. Each account with payment terms is assigned an Accounts Receivable Specialist. Billing issues can be directed to that person
2. If no resolution, issues are escalated to the Accounts Receivable Team Lead
3. If no resolution, issues are then escalated to the Accounts Receivable Supervisor.
4. The next level of escalation for billing issues is the segment Controller, the most senior finance representative associated with billing and collections.

D. Contractual Issues

In addition to the standard mechanisms for resolving service, equipment or billing issues, Dell Public Sector maintains a highly experienced contract management team. This team is staffed with experts who understand the unique requirements of SLG, K-12 and HIED customers. Working as a part of the operations organization, this team provides both first-response and point-of-escalation support.

1. First-Response

A tenet of the direct model encourages a single point of accountability. This means that while Dell provides a documented method for responding to customer issues, every person at Dell is encouraged to take ownership of their resolution. As an example, while the contracts team primarily exists to assure contract compliance, it often serves as a first-response point with customers. The contract manager listens to customers and connects them with our streamlined customer service, equipment and billing processes. The process will resolve the issue to the satisfaction of the customer without further engagement of the contracts team. The contracts team often follows up to ensure the problem was solved to the customer's satisfaction.

Contract managers are also charged with pro-active monitoring of Dell behaviors to assure contract compliance. This ensures that the entire delivery and support organization understands Dell's obligations from day one of a new contract.

Examples of the first-response function under the current WSCA contract include

- a. Answering end-customer questions about the overall WSCA program and how Dell's offering meets their needs under this program.
- b. Escalating service complaints to the appropriate technical or customer service organization.
- c. Routing equipment support questions as appropriate.
- d. Ensuring that repeat support issues are escalated inside the product and support organizations.
- e. Connecting customers with the appropriate billing representative and managing tools that ensure billing is in accordance with contractual requirements.

E. Point of Escalation

Some complaints are harder to resolve than others. If a customer has engaged the appropriate customer service, equipment and billing resolution process and is dissatisfied with the results, the contract management team can act as a level of escalation by:

1. Supporting a customer's unique requirements for a special project.
2. Escalating customer questions and complaints to the NASPO | WSCA Administrator.
3. Working with customers and Dell internal resources to ensure expectations are set and met.
4. Ensuring the decisions of the NASPO | WSCA Administrator are implemented on future orders.

Contract management can be considered an administrative function. Dell's ability to staff an industry-leading contract management team is enhanced by the focus of this team on issues that improve overall customer experience. Active engagement in resolving customer concerns is integral to this role. The contract management team ensures that these concerns get to the right people inside Dell, then follows up to ensure they do not become contractual issues.
